

19th Infection and Sepsis Symposium

Porto Palácio
26th-28th February 2014

Pre-congress courses:

Severe infection and Sepsis
24th-25th February

Nutritional Therapy in Critically Ill Patients
25th February

Main Topics

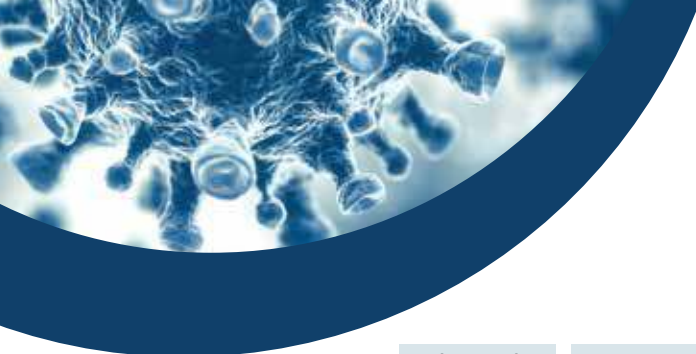

- Regulatory issues in infection control
- New National Directory of health guidelines
- Optimizing antibiotic use
- Promoting the adequate use of antifungals
- Sepsis and Organ failure

**Grupo de
Infecção e Sepsis**

16h30-17h20	Clostridium difficile: - Where are we in Portugal. Elaine Pina - What are the best preventive and therapeutic options? Chairmen- Conceição Sousa Dias and José Neves Domitília Faria
17h20-18h15	Treatment of secondary and tertiary peritonitis - How to cure and avoid fostering antimicrobial resistance. Jan de Waele - The new portuguese guideline. Eduardo Melo Chairmen- José Costa Maia and Paulo Mergulhão

Day 2- 27th February 2014

Optimizing antibiotic use

09h00 - 09h30	De-escalation: what is it? Do we walk the walk or is it just talk? Chairman- José Artur Paiva Michael Niederman
09h30 - 10h00	Aminoglicosydes in the ICU: friend or foe? Chairman- João Gonçalves Pereira Carlos Alves
10h00-10h30	In what circumstances is the MIC really needed? Chairman- TBA Jean Ralph Zahar
10h30 - 11h00	Coffee-break
11h00 - 12h15	Pk / Pd considerations - Adequate dosing of antibiotics for pneumonia. Michael Niederman - Determinants of non-target attainment in critically ill patients receiving beta-lactams? Jan de Waele - Antibiotic dosing in the obese patient. João Gonçalves Pereira Chairmen- Daniel Moura and Júlio Nóbrega
12h15 - 13h00	Combining antibiotics: when does it make sense and why? Chairman- Júlio Nóbrega José Manuel Pereira
13h00 - 14h30	Lunch
14h30 - 15h00	Viral pneumonia: much more than what is diagnosed. Chairman- Saraiva da Cunha Filipe Froes
15h00 - 15h30	Pneumonia: What's new in 2014? Chairmen- José Manuel Pereira and Filipe Froes Andrew Shorr
15h30 - 16h00	Meet the expert. Chairmen- José Manuel Pereira and Filipe Froes Andrew Shorr
16h00 - 16h30	Coffee-break
16h30 - 18h00	Complicated skin and soft tissue infections - How can we optimize microbiological diagnosis in cSSTi? Melo Cristino - What are the available therapeutic options? Andrew Shorr - High-dose / short duration therapy of cSSTi? Conceição Sousa Dias Chairmen- TBA

Day 3- 28th February 2014

Sepsis and organ failure

09h00-09h30	New stratification techniques. Chairman- Irene Aragão	Rui Moreno
09h30-10h00	When and how should we monitor the brain in sepsis? Chairman- Rui Moreno	Andréa Polito
10h00-10h30	Heart – lung interactions: a practical view. Chairman- Piedade Amaro	João Gouveia
10h30-11h00	Coffee break	
11h00-11h30	What is the optimal support for septic AKI? Chairman- Jorge Pimentel	Didier Payen
11h30-12h45	Fluid resuscitation - FENICE trial: what have we learned? - Are colloids really dead? - What about albumin? Chairmen- Paulo Martins and Miguel Tavares	Daniel De Backer Andréa Polito Didier Payen
12h45-13h15	Idiosyncrasies of haemodynamic monitoring in septic patients under ECMO. Chairman- Roberto Roncon	Daniel De Backer
13h15-14h30	Lunch	
14h30-15h00	Beta blockade and sepsis. Chairman- Richard Maul	Andrea Morelli
15h30-16h00	Making sense of sepsis-induced immunosuppression. Chairman- TBA	Didier Payen
16h00-16h30	Coffee break	
16h30-17h30	Promoting the adequate use of antifungals. - For bloodstream infections - For lung infection - Current controversies with the use of antifungals Chairmen- Ricardo Matos and TBA	Ben de Pauw Paulo Mergulhão Andrew Shorr
17h30-18h00	What are the cardinal principles of adequate antifungal use in 2014? Chairman- João Jaime Sá	Ben de Pauw
