

20th Infection and Sepsis Symposium

Sheraton Porto
02 - 04 March 2015

Congress courses:

Severe infection and Sepsis

05 - 06 March - Axis Porto Hotel

Nutritional therapy in critically ill patients

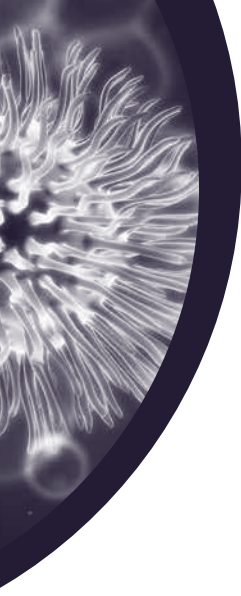

05 March - Sheraton Porto

Main Topics

- New antimicrobial drugs and new data on older ones
- Pk/Pd hot topics
- Antibiotic stewardship
- Update in sepsis epidemiology and definitions
- Early clinical and microbiological diagnosis
- Cardiovascular support: what 's new?

Grupo de
Infecção e Sepsis

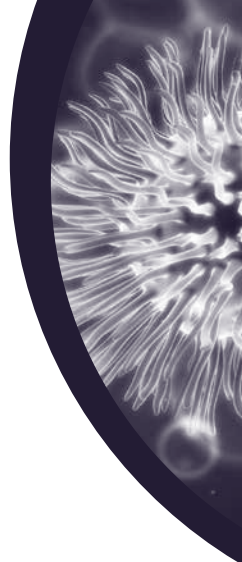

02 March 2015

09h00 - 10h30	<p>New and upcoming antifungals</p> <ul style="list-style-type: none"> - AF prophylaxis in 2015: agents and target populations Carlos Vallejo - Candins: are they really a sure bet? Cidália Pina-Vaz - New antifungal strategies Patricia Munoz <p>Chairmen : Filomena Faria José Neves</p>
10h30 - 11h00	Coffee-break
11h00 - 12h30	<p>Antibacterials</p> <ul style="list-style-type: none"> - Tigecycline: five years later Mercedes Palomar - New data on daptomycin and linezolid Patricia Munoz - Newer options for severe gram positive infections I. Martin-Loeches <p>Chairmen: Germano do Carmo José Manuel Pereira</p>
12h30 - 13h00	Combining AFs for invasive Aspergillosis Carlos Vallejo
13h00 - 13h30	<p>Bacteremia zero: how is it possible? Mercedes Palomar</p> <p>Chairman: Irene Aragão</p>
13h30-13h45	Opening Session
13h45-15h00	Lunch
15h00-15h30	Oral presentation - Evolução da multirresistência bacteriana no HGO 2002-14
15h30-16h30	<p>Sepsis and primary care</p> <ul style="list-style-type: none"> - Early identification and care of sepsis in the out-of-hospital setting Paulo Mergulhão - Madeira island: a case study Júlio Nóbrega <p>Chairmen: João Ribeiro João Jaime Sá</p>
16h30	Poster presentation
16h30- 17h00	Coffee-break
17h00- 18h00	<p>Strategies to reduce antibiotics consumption in the ambulatory setting Paula Baptista</p> <ul style="list-style-type: none"> - Drivers and data - Discussion panel <p>Chairman: Francisco George</p>

03 March 2015

09h00 - 09h30	Why and how are we “destroying” the antibiotics? Chairman: António Sarmento	Jeff Lipman
09h30 - 11h00	Antimicrobial stewardship and infection control - Blockers and promoters Portuguese success cases Containing MRSA in a high prevalence setting Chairmen: Carlos Alves Eduardo Melo	Mercedes Palomar Margarida Câmara Elena Molinos
11h00 - 11h30	Coffee-break	
11h30 - 13h00	Microbiological diagnosis - Rapid microbiological diagnosis using flow cytometry - Optimizing MALDI-TOF use - Do MDR impact on the prognosis of nosocomial pneumonia? Chairmen: Manuela Ribeiro TBA	C. Pina-Vaz Christine Ginocchio I. Martin-Loeches
13h00 - 14h30	Lunch	
14h30-15h00	Rapid identification of resistance mechanisms Chairman: J. Melo Cristino	Christine Ginocchio
15h00-16h30	Optimizing delivery - Antibiotic dose and dose intervals in RRT and ECMO - Nebulized therapy in 2015 - Maximizing beta-lactam effectiveness Chairmen: João Gonçalves Pereira João Pedro Baptista	Jeff Lipman Filipe Froes Jeff Lipman
16h30	Poster presentation	
16h30-17h00	Coffee-break	
17h00-18h30	Antimicrobial resistance - The English MRSA miracle - XDR bugs in Europe and the US: current status - Containing CRE spread Chairmen: Edgar Botelho Moniz Paula Castelões	Jon Otter Christine Ginocchio Jon Otter
18h30-19h00	Pk/Pd Hot-topics for 2015 Chairman: Daniel Moura	Jeff Lipman

04 March 2015

09h00-10h30

Sepsis epidemiology: an update

- In Europe and the USA
 - Portugal: from SACiUCI to InfAUCI
 Debate

Ricard Ferrer
João Gonçalves Pereira

Chairmen: Antero Fernandes | Paula Coutinho

10h30-11h00

Coffee-break

11h00-11h30

ECMO support for adult septic shock

Alain Combes

Chairman: Roberto Roncon

11h30-13h00

Redefining sepsis and sepsis treatment

- Are we ready for new definitions?
 - Sepsis as a immunosuppressive disease?
 - What should we change in the treatment algorithm?

Ricard Ferrer
Santos Rosa

Ricard Ferrer

Chairmen: Jorge Pimentel | Júlio Nóbrega

13h00 - 14h30

Lunch

14h30-15h00

Process, Arise and Promise: common messages and paradoxes

José Artur Paiva

Chairman: Francisco Esteves

15h00-16h30

Optimizing hemodynamic support

- Beta agonism or beta blocking?
 - Noradrenalin refractoriness: what is it and what to do about it?
 - Lactate, ScVO₂ and CO₂ gap: what do they really mean and how to use them

Miguel Tavares

Alain Combes

Didier Payen

Chairmen: Carlos França | Júlio Nóbrega

16h30

Poster presentation

16h30 - 17h00

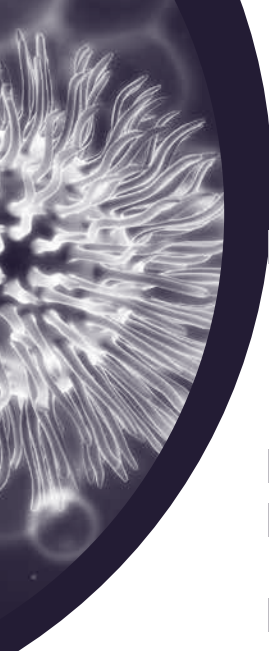

Coffee-break

17h00-17h30

Genetic profiling and prognosis in septic shock

Didier Payen

Chairman: João Gouveia
